Profile

Versatile and motivated computer engineering student with a solid background in full-stack development, mobile app development, data analysis, and business analysis. Proficient in Java, Flutter, SQL, Firebase, HTML, CSS, JS, and real-time software design. Achieved success in various areas through real-world internships, competitive hackathons, and academic projects. I care about solving problems with innovative solutions, teamwork, and ongoing learning.

Professional Experience

- Web Developer Intern
Dnyanda Sustainable Engineering Solutions Pvt. Ltd.
- Built and improved responsive websites with HTML, CSS, and JavaScript.
 - Worked on frontend UI/UX improvements and backend integration.
 - Took part in debugging, testing, and implementing features.

Education

• BE in Computer Engineering	ViMEET Engineering ,Mumbai University	2022–2026
• HSC	Karmaveer Bhaurao Patil College, Mumbai	2021–2022

Skills

Languages :

- Programming Languages:** Java, Python, C, Dart
- Web Development:** HTML, CSS, JavaScript

AI Tools & Technologies

- Intermediate proficiency in using AI tools and applying AI concepts in software development
- Familiar with integrating AI-driven features and enhancing productivity using AI-assisted workflows

Dev Concepts:

- Testing & QA:** Manual Testing, Bug Tracking
- CI/CD Basics:** Versioning, Build Pipelines (basic knowledge)
- Reporting & Visualization:** Power BI , Excel Dashboards

Databases & Querying:

- Relational Databases:** MySQL, SQL
- NoSQL Databases:** MongoDB, Firebase

Tools & Platforms:

- Version Control & Collaboration:** Git, GitHub
- IDEs & Editors:** Visual Studio Code, IntelliJ IDEA, Android Studio
- Frameworks & Libraries:** Flutter, React,Android, Web

Soft Skills:

- Strong **Communication** (written & verbal)
- Excellent **Problem-Solving** and **Analytical Thinking**
- Proven **Teamwork** and **Collaboration** in diverse team environments
- Good in **Documentation** and maintaining technical reports

Projects

- GiggleGossipe Real-Time Chat App** 2023 – 2024
- Java + Firebase-based messaging platform. Designed an intuitive chat UI, a secure login system, and push notifications. Collaborated on planning and Firebase integration.
- Hospital Management System** 2022 – 2023
- Developed a Hospital Management System HMS using Java and MySQL Designed to efficiently manage various hospital operations Built in IntelliJ IDEA for a modern development environment.

Awards

- Winner – Code Automata '25 Hackathon**
- Chhatrapati Shivaji Maharaj University, Navi Mumbai
 - Won 1st Prize in a 24-hour national-level hackathon for creating an innovative software solution. Showed strong problem-solving, teamwork, and technical skills.
- Winner – Technovate 2025 (Software Category)**
- Ramrao Adik Institute of Technology (RAIT), DY Patil University, Navi Mumbai
 - Won first place for a high-impact software project in a competitive tech showcase. The project was notable for its creativity, execution, and potential for real-world use.
- Winner – ELECTROWIZ '25 Hackathon**
- Datta Meghe College of Engineering (DMCE)
 - The IETE Student Forum organized an event where we won top honors for creating an impactful software project. We were recognized for our innovation and teamwork with leading engineering students from around the country.

Certificates

- Mobile App Development using Flutter – InLustro (Jan 2024)
- Robotics and Automation with Arduino Microcontroller – India First Robotics (March 2023)
- Web Development Certification – Sonsvels Solution (July 2023)
